

# PAINT PREP

**Primary Use:** Heavy Duty Cleaner/House Washing

## Product Description

**PAINT PREP** is a cleaner/degreaser which actively cleans off dirt, oxidation and mildew prior to painting. Also great for use in cleaning sidings, awnings, decks and other home areas. When it comes to cleaning or painting the exterior of your home, be prepared with PAINT PREP.

## Directions for Use:

Always test first to adjust strength weaker or stronger as needed. For general cleaning, mix 4 ounces in a 32 ounce spray bottle. For pump spraying mix 2 cups of detergent per gallon of water into pump sprayer. For pressure washing, adjust injector for a 60:1 ratio to start. Adjust as needed. When cleaning a house, work in sections. The most common widths are 6, 8 or 10-foot sections. Apply diluted solution starting at the bottom of the house and working towards the top. Let stand for a short period then detail clean. Rinse with liberal amounts of water from the top down. **DO NOT allow detergent to dry on glass, chrome, stainless or polished aluminum.**

**100% BIODEGRADABLE**

*Has caustic and solvent*

*Out of this World Performance*

*Extraordinary Savings !*
